"So Long"

Visit "[So Long](#)" on MotoLyrics.com

Everything's how I imagined
Living in the future of my past land
And I promised that I put forward my best
Always giving one hundred, I will never risk, risk, risk

I saw the light, I had to fight
All I can write, above my life
I had to shine, with every line
To take what's mine with all my time
This is what I do
All of this hard work I do for you
And I've waited so long to prove

Who woulda thought it'd be so amazing
Everything around me changing
Nothing would be the same
You should see how far I came
These lights and it's driven my name
I finally achieved my fame
It's so, so amazing
I've been working at this moment for so long
So long, so long, so long
For so long, so long, so long, so long
For so long, so long, so long, so long
For so long, so long, so long
I've been working at this moment for so long

I never thought that it would happen
Yesterday I imagined
About the plains and the fashion
They changing the game and my name on the add list
But what happened to those enemies, pretend-to-be's
The ones who always doubted me and now wanna be
friends with me
I'm saying these some haters cause now I'm doing it
greater
I'm getting all that fetti they probably gon be the waiter
But I made it to the top, faded from the block
Lights, camera, action, no more watching for the cops
On a race, I no longer behind the glide
But on the bright side they can't stop taking a shot

Big smiles, everybody all around me
Was always striving for the fame and they found me
Change up my address, never seen it likely
But someday I know that your ears would invite me

Who woulda thought it'd be so amazing
Everything around me changing
Nothing would be the same
You should see how far I came
These lights and it's driven my name
I finally achieved my fame
It's so, so amazing
I've been working at this moment for so long
So long, so long, so long
For so long, so long, so long, so long
For so long, so long, so long, so long
For so long, so long, so long
I've been working at this moment for so long
