

Rainy Boy Sleep "One After One"

Visit "[One After One](#)" on MotoLyrics.com

Oh well, I don't know
Well I'm happy as a boy can be
Look out my bedroom window
And realise that I can't see
It's dark at nine o' clock
Well it's just as dark inside my head
So loud I hear the silence
I hear exactly what you said
Too tired now for listening
It's just turned fifteen after three
Alone and long forgotten
The children run around and

Play on the street
I hear all their feet
Talk about one after one
Talk about me

Parental advisory
Explicit lyrics on my mind
I listen on the outside
To see what's there that you might find
My hand is sore from writing
These papers make no sense at all
The TV's over-rated
Equations never end up solved
The bridge outside is crossing
Into the world of the unknown
I wonder where it takes me
Another place that I call

Somewhere along
A place I belong
Talk about one after one
Talk about me

I feel so ordinary
I guessed that that's what you might say
Oh well, I don't know
Well it makes no difference either way.
