### "The Lights Are Going Out"

Visit "[The Lights Are Going Out](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's a painting on the wall  
That wasn't there at all  
Ten minutes ago  
There's a girl who walks the line  
She's with you all the time  
She won't let go  
And I can't see me with another girl  
As everything slows down across the world  
The lights are going out  
One by one  
Across the world  
With faces turning down  
The night will hide the sound  
She comes to you  
And I can't see me with another girl  
As everything slows down across the world  
In a harbour safe from storm  
She waits for darkened forms  
She's seen you there  
And time and time again  
You hear her call your name  
She calls for you  
And I can't see me with another girl  
As everything slows down across the world  
The lights are going out  
One by one  
Across the world  
The lights are going out  
One by one  
Across the world....
