"We Love You" by Orbital

Gotta get a message to the stars in our pockets for a rainy day
But here we are in trouble like we always are
Just praying for a miracle; reaching for the stars

We love you; would die for you
We need you everyday

We've gotta get a message
We love you; would die for you
We need you everyday
Oh we love you; wouldn't leave you
We miss you faraway

It's just another promise like we've heard before
Never really knowing what we're fighting for

We love you; would die for you
We need you everyday
Oh we love you; wouldn't leave you
We miss you faraway

We love you; would die for you
We need you everyday
Oh we love you; wouldn't leave you
We miss you faraway

(repeat and fade)
