I spent my life running away from you  
Still trying to find an answer  
You'll break before I do  
Fuck you and everything you stand for

I promise  
You'll feel the heart that you've given  
So honest  
Regardless  
This heart remains for it is true

Open up my eyes and show me daylight  
We nearly made it through the darkest night  
Set yourself aside  
And be reminded  
Walk your own path  
You decide it

I've cut myself into pieces  
Searching a future that never existed  
Why should I give up my life  
If your just so misguided

I promise  
You'll feel the pain that you've given  
So honest  
Regardless

Open up my eyes and show me daylight  
We nearly made it through the darkest night  
Set yourself aside  
And be reminded  
Walk your own path  
You decide it

I spent my life running away from you  
Still trying to find an answer  
You'll break before I do  
Fuck you and everything you stand for

Caught in the hands of a past

Can't escape it's grasp  
Somebody help me breathe again  
Open up my eyes  
Awaken life  
Begin again

Open up my eyes and show me daylight  
We nearly made it through the darkest night  
Set yourself aside  
And be reminded  
Walk your own path  
You decide it

Your eyes
