Mystereality

It's not the same game anymore
I know the times or the places before
You don't know, you don't know, you don't know

If you see me you'll be asking
It's always tick, tick, tick, tick, tick, tick, day
Oh, reality don't fool me
No mistakes this time

Mystereality

Well, right, it's all just promises
You know how much I hate the unforeseen
Oh, don't you know

I never, never regard for the truth
What's the meaning of that Mister R
Oh, reality don't fool me
No mistakes this time

And my, my, reality
So where did we go wrong?
Have you seen just a-recently
The lengths to which we've been

Now you could say that it's time
Mistakes, they seldom work
Oh, reality don't fool me
I count on you to know
