Like a little child  
You try to pretending for a while  
But you feel the pain  
Seems like I felt you once again  
If only I could stop them falling  
Falling down like rain  
If only I good stop those tears now  
Knock you down again

Stay, why don't you stay?  
Stay with me...

You could settle down  
Give up the fight before you drown  
But you stand alone  
'Cause your lonely house is not a home  
If only time could fall or stumble  
In all the years we claimed  
If only time could heal your soul if  
No-one left to blame

Stay, why don't you stay?  
Stay with me...

If only I could stop them falling  
Falling down like rain  
If only I could stop those tears that  
Knock you down again

Stay, why don't you stay?  
Stay with me...  
Why don't you stay?

Why don't you stay?  
Why don't you stay?  
Stay with me...  
Why don't you stay?  
Why don't you stay?  
Stay with me...
