What you want is just outside your reach  
You keep on searchin'  
You're walking down that Pensacola beach  
You keep repeatin'

While you're waiting for that sound  
Apparatus to the ground  
You're stealing from the lost and found  
But what you find  
Ain't what you had in mind

Until you find your Rolex in the sand  
You won't be stopping  
Until that solid gold is in your hand  
You won't be happy

Call your office on the phone  
You can't say you won't be coming home  
You're balancing vacations on a rope
