Change of mind is moved around  
Takes me back to when we met  
Forever moved a promise kept  
The song implies, I don't believe all this before

To be with you  
Trust in your eyes, I can see in your eyes  
Away go away  
To be by your side, I'd travel all night  
Away go away

You set the scene to let me down  
And when you leave, I can never make my mind up  
We're on the move, we move too far  
And when you lie, it's only me, I'm not deceived at all

To be with you  
Trust in your eyes, I can see in your eyes  
Away go away  
To be by your side, I'd travel all night  
Away go away

So far from me to be the same  
I'll try again, I'm here alone  
I shan't forget, I feel this way  
And all the time, you can dance until we meet again

To be with you  
Trust in your eyes, I can see in your eyes  
Away go away  
To be by your side, I'd travel all night  
Away go away

To be by your side, I'd travel all night  
Away go away
