

## **Redemption Denied "Life Sentence"**

Visit "[Life Sentence](#)" on MotoLyrics.com

We've spent too much time with our eyes closed - while everything around us decays.

Nothing sacred in this world, no matter how we toss and turn - there's no running away.

Fed their deceit for too long, society - can't fool me.

Nowhere to belong, at war with the world - Endlessly.

There's no way out of here.

Spend another day in denial - but we'll reap what we sow .

I've watched the distance grow for every lie you've swallowed.

Slowly slipping away - I have to get out 'cause I'm losing my sanity.

What goes around, comes around - One day we'll pay for these atrocities.

We've spent too much time with our eyes closed - while everything around us decays.

Nothing sacred in this world, no matter how we toss and turn - there's no running away.

Fed their deceit for too long, society - can't fool me.

Nowhere to belong, at war with the world - Endlessly.

There's no way out of here.
