Red Fang - Human Herd

We set our minds to take him away from your arms

Our greatest fear is never to bring him to harm

Its hard to see his flowing golden hair

For light thats blinding us with market share

Chorus:

You can't protect him from his life

We'll find a way to make you lie

He'll be with us and never die

This the end and you know why

Out to the water you let us pull him down

They never struggle when they to want to drown

They take so much from us without a word

Just a little thing we ask from the Human Herd

Chorus:

You can't protect him from his life

We'll find a way to make you lie

He'll be with us and never die

This the end and you know why

You can't protect him from his life

We'll find a way to make you lie

He'll be with us and never die

This the end and you know why
