I'd like to ask you, tell me why you're sat at home.  
You take it all to heart

The wheels are burnin', drivin down the city road  
I'm drinkin' at the bar.

Speedin' down the highway and the lights are in the  
skyway tell me can you feel the heat?  
Don't know where we're goin' but the love for it is flowin  
all the way.

You went all around (You'll never bring me down)  
Listen to the sound (we'll take it to the town)  
Lost and now you're found (Time for another round)

How we're getting home oh baby I don't know  
Turnin' and we're burnin' but we're ready to go

Now we're rollin', rollin' through the midnight sky  
There's nobody in sight

Does it get better? Livin' off the perfect dream  
They call it Rock N Roll

Speedin' down the highway and the lights are in the  
skyway tell me can you feel the heat?  
Don't know where we're goin' but the love for it is flowin  
all the way.

You went all around (You'll never bring me down)  
Listen to the sound (we'll take it to the town)  
Lost and now you're found (Time for another round)

How we're getting home oh baby I don't know  
Turnin' and we're burnin' but we're ready to go
