Just like a needle in a haystack
Another day we run with the wolf pack
Everybody want a piece when you know how
You don't want to be on this side of know how
Or when you see this side of the horizon fading
And you see all the bylines changing
When your feet pulls up in the flatland fainting
You don't want to leave them waiting
Cause they woke you up They'll watch you drown
They've got us picked for a life in the ground
They build the walls that also holds the sharks in
They set us torchings and they are the ones who make
it dark
When this life comes to break us and beat us down
They send the beast just to push us around
We maintain we are not in the grave
They may have our number but we still have something
to say
Chorus
Redemption
Ooh oh
Ooh oh
Redemption
Ooh oh
Ooh oh
Into all that will make it right
You don't want to bring a gun to a knife fight
You don't want to be the life with the with the ride
down
You don't want to be in the dark now
When the chains not far from breakin
And the hand that feed is takin
Cause it feels backed up cause you got locked up in
sickness
Cause your lying on the pavement
Cause they woke you up They'll watch you drown
They've got us picked for a life in the ground
They build the walls that also holds the sharks in
They set us torchings and they are the ones who make
it dark
When this life comes to break us and beat us down

They send the beast just to push us around
We maintain we are not in the grave
They may have our number but we still have something
to say
Chorus
Redemption
Ooh oh
Ooh oh
Redemption
Ooh oh
Ooh oh
They're burnin sweat you know they're right
They took what you had, now go take it back
The burning sweat you know aint right
They took what you had, now go take it back
When this life comes to break us and beat us down
They send the beast just to push us around
We may jest with one foot in the grave
This live aint over yet we still have something to say
Redemption
Ooh oh
Ooh oh
They try to break and beat us down
Redemption
Ooh oh
Ooh oh
We still have something to say
Ooh oh
Ooh oh
Redemption
