### "When The Dust Settles Down"

Visit "[When The Dust Settles Down](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Been up and down these streets  
I've seen both sides of town  
I've been through the hardship  
The long way around  
The point of no return  
That's just where I begin  
Spent a lot of time with all seven deadly sins  
Hated who I was  
Who I became  
Lost my faith in God  
Put my faith in cocaine  
Cheated on my girlfriends  
Lied to myself  
Put my whole family through hell

When the dust settles down  
You've seen where you've been  
Runnin on empty  
Broken within  
When the dust settles down  
There ain't nothin left  
Turn it around  
Start over again

And when you have nothin left  
Find out what you're worth  
I came through the storm  
Stopped diggin in the dirt  
I rewound the tape  
Saw through the evil and hate  
Started believin that I had what it takes  
I went back to the start  
Workin full shifts through the worst shit  
Kickin carpet and bouncin punks at the bar  
I got a new life now  
Now that I'm legit  
You can call the cops man  
It don't mean shit

When the dust settles down  
You've seen where you've been

Runnin on empty  
Broken within  
When the dust settles down  
There ain't nothin left  
Turn it around  
Start over again

When the dust settles down  
You've seen where you've been  
Runnin on empty  
Broken within  
When the dust settles down  
There ain't nothin left  
Turn it around  
Start over again

Start over again  
Start over again  
Start over again  
Start over again

When the dust settles down  
You've seen where you've been  
Runnin on empty  
Broken within  
When the dust settles down  
There ain't nothin left  
Turn it around  
Start over again
