### "I Want You"

It's been 6 days and I had so many ways I've tried to  
get her off my mind  
rather go out and get , so I put a ring on my middle  
finger  
, till she backed it up one time, think I found something  
I like

Girl I want you, I can tell you fell it too, tell me what you  
wanna do  
I need you, tell me, I want you,  
I can tell you too, tell me what you wanna do  
I need you

You by my side ain't a better feeling than you for the  
night  
Come and take a round with me, I'm anxious, so  
anxious  
You ain't gotta say how it feels,  
looking at me like you wanna know what the deal  
My car is parked outside, if you come , baby I should  
go ..  
I don't mean to be rude, you look so good, you look so  
good,  
the way you moving the way you do, the whole I'm ,  
looking to  
And there's no one I'ma be with, if it means that it's not  
myself  
Cause girl you gotta feel that I'm feeling, I am feeling  
for a while

Cause girl I want you, I can tell you fell it too,  
tell me what you wanna do  
I need you, tell me, I want you,  
I can tell you too, tell me what you wanna do  
I need you, and it feels so good tonight  
and I want you, and I want you, can you feel it too  
sweet lady, yeah, oh, hold you, tell you, tell me what  
you wanna do  
tell me how you feel, you can keep it real  
how high do you want girl?

,

just hold tonight, cause I don't mean to be rude  
I don't mean to be rude, you look so good, you look so  
good,  
the way you moving the way you do, the whole I'm ,  
looking to  
And there's no one I'ma be with, if it means that it's not  
myself  
Cause girl you gotta feel that I'm feeling, I am feeling  
for a while  
So what you wanna do, tell me what you wanna do  
hey, so good to feel how good it is  
won't you come on to my crib  
we can have a glass of wine, we can play some ,  
and I will be all, I can get the whole you  
and I can massage your body  
I want you babe, I need you babe  
so let's get off this ..., grab your clothes, buckle up, we  
gonna get on.

Thanks to Andrei
