Out in the crowd, it's the middle of the night  
Everybody's looking at you  
Familiar faces but nothing seems to phase me  
It's all about me and you (and you)

Yeah the night is so young  
You gotta have some fun  
We'll leave it all behind now  
I'm not saying I'm Mr. Right  
We'll leave without a fight  
I gotta make a move somehow

Coz I don't wanna waste tonight  
Turn out all the lights now  
Make out on your bedroom floor  
No I don't wanna say goodbye  
Wishing for the spotlight  
Missing on your bedroom floor

So shut up and kiss me  
No need to tease me  
You don't need to say no more  
Ohhhhhh  
Shut up and kiss me  
I know you're gonna miss me  
Kissing on your bedroom floor

So what you think?  
Are we on the same page?  
Coz I don't wanna play the same game  
Ohhhhh  
So roll the dice, we don't need to think twice  
You're gonna beat me every time we play

Yeah the night is so young  
You gotta have some fun  
We'll leave it all behind now  
I'm not saying I'm Mr. Right  
We'll leave without a fight  
I gotta make a move somehow

Coz I don't wanna waste tonight

Turn out all the lights now  
Make out on your bedroom floor  
No I donâ€™t wanna say goodbye  
Wishing for the spotlight  
Missing on your bedroom floor

So shut up and kiss me  
No need to tease me  
You donâ€™t need to say no more  
Ohhhhhh  
Shut up and kiss me  
I know youâ€™re gonna miss me  
Kissing on your bedroom floor

Letâ€™s save the best for the darkness  
Gimme just that little bit more  
Donâ€™t say that you can resist me  
What are you waiting for?

What are you waiting for?

Tonight, letâ€™s turn out all the lights now  
Make out on your bedroom floor  
No I donâ€™t wanna say goodbye  
Wishing for the spotlight  
Missing on your bedroom floor

I donâ€™t wanna waste tonight  
Turn out all the lights now  
Make out on your bedroom floor  
No I donâ€™t wanna say goodbye  
Wishing for the spotlight  
Missing on your bedroom floor

So shut up and kiss me  
No need to tease me  
You donâ€™t need to say no more  
Ohhhhhh  
Shut up and kiss me  
I know youâ€™re gonna miss me  
Kissing on your bedroom floor

Shut up and kiss me  
No need to tease me  
You donâ€™t need to say no more  
Shut up and kiss me  
I know youâ€™re gonna miss me  
Kissing on your bedroom floor
