I know yall celebrity's think that
i envy you, but in-reality every
time i look
on Google maps I see yall streets
looking the same as every thing else.
what the fuck. And on top of that
why my whole entire life - I've been
knowing
all store owners and going in and
out of clubs. Plus I new all my teachers
but what the fuck do we have here.
Teachers can only be something if
they live in Boston Massachusetts.
On Top Of That them yellow buses
still riding
threw yall city muthafucka. Plus
them video ad's yall making people see
at the begging of these lottery games
and video games sites is stupid as shit.
and the showing of them on you tube.
Lets Not forget that, yall already know
why yall sometimes make the credits go fast
so humans can't read it - cause it's more
for the workers and shit.And humans just
don't read the shit a lot.And television
commercials
and Infomercials - but what do we have here -
industry people saying if you don't like this
ad being there pay for it.
Hell No you stupid fucking bitch, you put that
shit there when it wasn't on the Internet in
2000 : yall said that ad's shouldn't be real
by yall self, to me some advertisements are
ok - I Am not about to play.
But know hold on wait a minute yall
rich and yall want them humans to pay.
Thats ok because all the homeless shelters
and welfare departments will still be their.
"Thats Ok"

Chorus:

Oh My God This Nigga shouldn't have said this

Oh My God This Nigga Need To quit
Oh My God This nigga must got fucking bipolar and
shit
Naw Maybe thats because we made out of semen and
praying to god you dumb bitch

Cause I could have one of my rich cousins giving
me money on a debit card, every week and or
month and from they account in the name not
mine. Man yall don't realizes that the devil
fucking with yall head - fuck him. Also What
yall don't realizes when yall praying to a
god thats inside you and you still do that
that means that you are crazy when you calling
other people crazy. Acting like you ain't made
out of semen and on planet earth. But what do
we have here - eating animals and killing them
and saying that eating humans is wrong - Fuck
that i want some human meet in the kitchen
frying - I don't want it baked.

i know you about to be feeling real fucked
up when i say that god wanted ever body who
rapped to rape. But what do we have here people
cussing in they songs and movies and on the
streets, but looking regardless wrong for
writing this. Thats Ok Because when one of
these God humans kill another muthafucka - it
will be shotting stars for the pay. Plus yall
stop having commercials on TV showing the
selling of beer and cigarettes but yall still
keep showing disease. On Tv - are you trying
to natural fucking cause give these humans
disease. sorry Lord Jesus they put you on the
cross but heart attacks are still going on
stupid Jesus - oh my fault one of the humans
new on the mind and wrote a real powerful book -
it ain't saying the spirit ain't powerful - you must
be fucking shook bitch.

Chorus:

Oh My God This Nigga shouldn't have said this
Oh My God This Nigga Need To quit
Oh My God This nigga must got fucking bipolar and
shit
Naw Maybe thats becuase we made out of semen and
praying to god you dumb bitch

I don't have a soul or a spirit - sorry
to you psychics and other people hearing
voices the humans said they wanted to pray
to the voices in side of them -but in reality

the shit wasn't possible to be their -
sorry they don't care.

Who Made the fucking Tv The humans muthafucka
who went in the room and went to sleep -
the humans muthafucka
who made all the radios and TVs The
humans Muthafucka
who made or are doing all the killings -
the humans muthafucka
who made the kids and felt that was
cool to populate - the humans muthafuca
who made the planes and water come to
all houses from another building
the humans muthafucka.
who made all the electronics muthafuckas
the humans -
do you fucking dumb government figures no
that when you created DTV for
those people that use it - that that shit
is skipping and blinking all the damn
time yall fucked up - and yall did it on
purpose. Good thing I got cable.
I'm gone grow somebody's ass up like when
i was young and playing with legos.
You wanna play let it go - it's not envy -
Us muthafuckas is just human.
This shit I wrote here, you still living
nothing I'm proving.
The misspelling on-line I left them in my
name on purpose - I started that in 2007.
I never asked for people to do the same -
I'm hoping out of a seven.

Chorus:

Oh My God This Nigga shouldn't have said this
Oh My God This Nigga Need To quit
Oh My God This nigga must got fucking bipolar and
shit
Naw Maybe thats because we made out of semen and
praying to god you dumb bitch

Yall celebrity's really just normal but
wish yall was so higher than the rest of
the population - in reality yall just got
cameras - and showing that shit on tv -
don't nobody need yall rich ass to live
bitch - you got the game wrong on why you
making music and on TV - Yall wish that
nigga regardless gave a fuck about you -
Yall celebrity's must be fucked up in ya head

sending me emails and gifts - you was just a normal human guess what when you travel you want come inside the hood bitch - you wanna work work - but remember there is only 24 hours in each day -if your rich ass talked on the fun too 24 people for an hour thats it - thats why yall celebrities is lonely than shit - watch when you take that five minute piss or a nap - yall dumb ass bitches ain't go do shit but go to a suite recording that shit then go to sleep - why because your 24 hour period is about to be over -

Chorus:

Oh My God This Nigga shouldn't have said this
Oh My God This Nigga Need To quit
Oh My God This nigga must got fucking bipolar and shit
Naw Maybe thats because we made out of semen and praying to god you dumb bitch

plus when you work how long will you answer business calls - your day about to be over - thats why you feel you a celebrity and can't be by regardless thats why yall only come to Dayton Ohio to do shows - yall lonely as shit - yall day almost over - plus yall gone sit there with broke people for how many hours - then you lonely as fuck - hiding in yo shell - oh you a celebrity you doing so well - Oh i'm scared - what if all the music and tv shows leave - guess what so what bitch - fuck that bitch yall sucker ass pop up and ads need to leave. Why All I gotta do is work 8 hours and go to school 8 hours thats 16 hours yall can add the 24 hours period to the rest - yall celebrity's lonely as shit thats how i Know - and that nigga regardless like to fuck for 6 hours thats the other seven in the 24 hours period - now take your lonely major artists ass to sleep and eat A piece of chicken - you dumb bitch - do you know what Gettysburg street in Dayton Ohio look like - that s right only business and stores and shit owned by rich people - every single one in our whole entire shit you celebrity's is lonely as shit. Plus every single house and corner store is owned by somebody rich with chips also all real-estate - but you got camera so you different than shit - ain't nobody gone believe those celebrity's lies and change the lives when

the already doing the same shit - yea thats
right all people making music and videos in the hood.
You cant drive your car alone - bitch no you rich and
your day is almost over get mad - get very mad the
only reason a celebrity should be mad for reading
this is - because every thing
wrote here is what yall live like -
and yall been hiding that shit from your selves.

Chorus:

Oh My God This Nigga shouldn't have said this
Oh My God This Nigga Need To quit
Oh My God This nigga must got fucking bipolar and
shit
Naw Maybe thats because we made out of seaman and
praying to god you dumb bitch

Plus yall ain't gone put in the news when
you sitting around lazy on your off day -
presidents of all country's including USA
and doing nothing but talking on camera
and only circling yes and no on each vote
to pass it - oh yea thats on them - The President
in a magazine drinking beer and on vacation
who running the world
Regardless Devon Muthafuckas
the same "muthafukas" who ran it before each
president in every country came.
when i go downtown Dayton at the government
offices who the hell do you think running or
shit - not you you bitch - but that DTV was ok -
yall was stupid as fuck for taking smoking
out of public places jails and bars -
who the hell wanted to be condemned to only smoking
outside - i could teach yall celebrity's how to be rich
you think I'm teaching you how to be broke celebrity.
I cant teach the president how to pass laws.
I know yall rich that means you got unlimited
money- but to me you celebrity's is the same as every
one
else - i bet you think it's funny.
