(Intro)

Yeah here we go here we go

(Verse)

I must of taught you something about the love and  
loneliness cause you're gone I use to tell you I was a  
lone warrior and now you seem to of walked out and  
taking it personally last we spoke you accepted it from  
me now you seem to be a lone warrior now I know the  
way that you feel understand why you put up the  
barrier that's what you do desire I won't put up a  
fight if you want to go if it makes you feel much better  
I'm tougher than leather miss ya and I love you but I  
won't beg or pander that's just the way that I am  
inside that's why I say

(Chorus)

I've chased you away know what to do don't know  
what to say (2 times) don't what to say I've chased  
you away I've chased you away

(Verse)

Now you're gone and I don't understand Know what  
to say you're gone you're gone away blown away  
don't come back to me

(Chorus)

I've chased you away know what to do don't know  
what to say (2 times) don't what to say I've chased  
you away I've chased you away

(Chorus)

I've chased you away know what to do don't know  
what to say (2 times) don't what to say I've chased  
you away I've chased you away
