(Intro)

Desperate times again. Desperate times again
R, E, H, D, O double G Here meh now!

I really try to do the best that I can.
I really appreciate all of meh true fans
Some try to dismiss me I don't give a damn
I live to teach and I will never ever stop
The only way is to hit me until I drop
Desperate times all over again

(Verse)
I will never ever pressure you not again
Asians don't like me and I don't like them
Things will change and things stay the same
Born to lead so just follow meh lead
We have a president who lied under oath
He's tearing down the U.S. constitution
He's tearing down the U.S. constitution
And I know that them things are really wrong
Hundred thousand strong at the tea parties
I will never stop so stop telling me to stop
Am I retarded, am I crazy, am I insane whos
Out there to blame
I don't know if I'm totally insane
God give you a mind so stop close your eyes and blind
God give you a mind stop close your eyes and blind
They taking all of our freedom away
Really try meh best to do the best that I can I really
appreciate
All may true fans
Some try to dismiss me no give a damn
Some try dismiss me I don't give a damn

(Chorus)
Desperate times again (three times)
Here meh!

(Verse)
I live alone and I don't condone

The bad people out there leave me alone
Born on the island meh come from St. Thomas now
People just leave me alone, really try my best but I
don't contest
Some laugh and others call me an ass, I'll never stop
so stop telling me
The only way I'll stop you have to hit me til I drop
Desperate times again I will never pressure you.
Asian girls don't like me and I don't like them
These days I have to move on word to the God
Born to lead so just follow meh lead.
We have a president who lied under oath
He's tearing down the U.S. constitution
