(Intro)

Here we go conscious lyrics here all right

(Verse)

Didn't learn your lesson don't disrespect don't
judge this book I've got intellect

Why must I cry got me on the map that was 2006 gotta
move past that

Many youth out there look up to me inspire them to
meet their goals

Then live and be happy that's right R, E, H, D, O
double G that's right

To me that's better than money (2 times) when I'm
dead and gone and buried

My lessons lives on through them that's right they will
cause no problem

My music carries on carries on some rappers out there
There music really causes harm causes harm that's
word is born

I'd rather line on in the country in a farm raising
cattle, chicks, pigs, and horses in a barn

That's just the way I feel word is God I'm the one
that's hard and working

Working really hard to earn the things that I have
can't relate to the people on the Government

(Chorus)

Cheese please food-stamp families I just don't relate
to that

Cheese please food-stamp families I just can't relate
to that

(Verse)

The ones in plain English I just don't like them they
take taxpayers money

Some laugh and they think it's funny aint a damn thing
funny

Didn't learn their lesson disrespecting and there
disrespecting

I've got interlecting Why must I cry in 2006 got on the
map

I want to move pass that many youth they look up to me
Inspire them to meet all their goals to be living clear
and be happy
To me that's better than money better than money

Some people they want it in a hurry when I'm dead
and gone my lessons they live on
Through the youth my music it carries on not like

chicks, pigs, and horses in a barn
I'm hard working and that's the way I earn my
