(Intro)

Well I want you to know that I don't like the way that things are going in my life at this time

And the year is 2013 low self esteem is not good

(Verse)

Fuck my life there was once a time I wanted to settle down and have a wife

Events in the past prevented that from coming to light  
Told the ex-friend that's the way I feel and it shocked him beyond belief so

(Chorus)

Fuck my life

F, U, C, K my life

(Verse)

Can't help it a part of me wants to go on and the next part wanna be buried

It's a scary thing to feel the pain and torcher within me but it's the pain

That keeps me real it's the pain that makes me a survivor certain people

Intrigue me it's the soul that I'm attracted to with a bit of physical

And Physiologically so

(Chorus)

Fuck my life (2 times)

(Verse)

It's the misery that makes me unstable stable can't you hear me

I hear the voices in my head still I've got to go on cause I've got a few more years

And I'm imploding internally

(Chorus)

Fuck my life (2 times)

Fuck my life with a big and sharp heavy knife so

Fuck my life I said Fuck my life with a big heavy knife

(Verse)

When I get close to a friend it's fucking scary because I meant

Get so emotionally attached and I hold them to a high standard

Don't disappoint me that's not an option

(Chorus)

Fuck my life (2 times)

Fuck my life with a big fat heavy knife

(Verse)

Those things that I wanted to come through wanted to  
settle down and have a wife

Events in the past prevented that from coming to light  
told them ex-friends

About the feelings inside it shocked them beyond  
belief so

(Chorus)

Fuck my life (2 times)

Fuck my life I said fuck my life

Ya heard fuck my life fuck my life

Fuck my life with a big heavy knife

(Verse)

Can't help it it's a part of me it's a scary thing to  
feel the pain the torcher in me

Inside deeper and deeper in my soul and it's the  
thing that made me a sole survivor
