(Verse)

I need to cleanse my mind cause inside it's dirty and  
what if God don't give us more than we can take but I  
don't know if that's true because I have more than I  
can take I feel like I'm gonna break only way that I  
know is how to be real never like being fake can't do it  
alone but doing it alone is all that I know my strength  
comes from within that's the only thing that I know the  
ones that chose me the ones that seek me out and they  
found me and that's the only thing that worries me  
about me I don't understand if it's my strength or  
it's destiny I use all of my strength and energy to save  
them from themselves and make them a better person  
but it just makes me go under go under and I can't  
get out cause I'm drowning and I don't know how to  
fix it and I can't fix it no more but the inner strength is  
inside and I rejuvenate and that's the only thing that I  
know but sometimes it gets me frustrated and  
frustration is the only thing that's on my mind that's  
the way that I feel is it nice or is it kind I don't know  
and others seeks me out again and again and it  
recycles all over again I don't understand why it's  
happening to me is this the thing for me I don't  
understand it no more I just want to get out of it and I  
don't want it no more I just wanna be myself be by  
myself go up in the mountains and be a mountain man  
I've left everyone behind and that's the only way that  
I'm gonna feel that's the only way that I know how to  
be real that's why I'm saying that word is to the born  
and born is to the God

(Verse)

He says he don't give us more than we can take but I  
know how I feel inside I just know I'm gonna break I  
only know how to be real I don't know how to be fake  
can't take it no more but being more is the only thing  
that I know my strength inside I don't understand my  
pride got to get away from me cause I just can't take  
it no more I can't run and I can't hide the strength is  
too strong it's gonna over power me like an atom  
bomb boom click pow it explodes and that's the only

thing I do I just wanna unload that's the way that how I  
feel you know what I mean yeah R, E, H, D, O double G  
sometimes it's not easy being me I have to be a  
warrior and that's the only thing that I know but  
sometimes being a warrior it's tiring and lonesome  
and I don't understand why it has to happen to me I  
don't want any more please save me from myself  
save me from this life I can't take God knows I can  
take more than I can take he knows me better than I  
know me can never be fake can't do it alone but doing  
it alone is all that I know my strength comes from within  
that's the only thing that I know the ones that I chose  
and loved me they sucked me out and found me suck  
me out that's kind of nasty I told you my mind was  
filthy and dirty that's the way that I feel worrisome I  
don't understand I don't ever want none
