(Intro)

Let's get serious everywhere liberalism is tried all
around the world it's failed
Conservatism that's the way you gotta go it's not a
bad word don't fight the good
Let's not be evil anymore ya heard

(Verse)

What would you have me do roll over and play dead I
choose to fight yeah instead now
Liberalism is a fatal decease that spreads it's like a
sexual decease between your legs
Like aborting a fetus for all the idiots I mean the
women eggs
I choose to speak my mind sometimes I open my eyes
sometimes I close it I'm unkind
I will seek until I find the truth to all yall liars you'll get
the boot evil can't over throw the good
If you're evil you must have a screw loose a cable
loose in the head you must be crazy
I'm able body willing to stand for my principles it's
just that simple pop you like a big fat red pimple
Yall just can't stop me cause I don't stop until I get
through the evil listen to me
What's my name you know it all ready R, E, H, D, O
double G now what you gonna do
You gonna try stop me what you gonna do you can't
shut me up you ever try to shut me up
I'll show you what I'm all about you heard me

(Verse)

What would you have me do roll over and play dead I
choose to fight yeah instead now
Liberalism is a fatal decease that spreads it's like a
sexual decease between your legs
Like aborting a fetus for idiots I mean the women eggs
I choose to speak my mind sometimes it's nice but
most of the times I'm very unkind
I seek to find the truth to all yall liars out there you will
get the boot
Evil can't over throw good if you evil you must have a

loose cable

Iâ'm a willing able body to fight willing stand up for my principles (2 times) itâ's just that simple pop you like a big fat bloody stinking pimple thatâ's right because itâ's simple I stand up for conservatism
Liberalism is a mental disorder like the great Michael Savage said

(Verse)

What would you have me do ignore the things that you do and make this country go down the hill
I donâ't think so chill take a pill you want to try to take me out but thatâ's never gonna happening
Iâ'm here without a doubt Liberalism is fatal like a deasease it spreads in-between your legs
I donâ't understand why you even try itâ's been tried everywhere and itâ's failed
Itâ's a failure like president Obama I donâ't like that man cause he a guy that hates America
And I donâ't like a hater oh just go the hell on out of this country donâ't get me mad because I will just
Hold on stop it I see the secret service on my doorstep they wanna take me out but nevertheless
I stay on the target because Iâ've got my freedom of my speech and Iâ've come here to teach
R, E, H, D, O double G you heard me I stand for good can never stand for evil stand up for my principles
And itâ's just that simple yall know where Iâ'm coming from yall know where Iâ'm at
And if you donâ't know youâ're sure gonna find out real fast
