(Intro)

This one is true. True love, will never die  
Never die (repeat 6) even though you're so far away in  
NYC, BX I know that  
True love will never die

(Verse)

I remember the first time that we kissed. It was magical  
at that very  
Moment I knew the truth  
I knew that you were in love with me too. That made me  
very happy and maybe  
I'm delusional living in the past. Hoping and wishing  
that. You were back  
In  
To my life (repeat 3) that's okay

(Chorus)

True love never dies (repeat 4) I pray to the Gods up  
above that you're not  
Lonely. I hope you are happy. I hope that you're happy...

(Verse)

I know because you looked deep into my eyes, I can't  
love again not until I  
Know for sure that you are happy. Because my heart is  
still bleeds and  
Beats out for you. And Alden street was special to me.  
Because you were  
Living with me, lye with me, sleep with me. Put your  
head on my chest and  
Yes the rest is history. That is the truth cause I moved  
on rapidly. I die  
Slowly because I'm indeed of love truly

(Chorus)

I pray to the God up above. That you're not lonely, I  
hope that you're  
Happy

(Verse)

I remember the first time that we kissed it was magical  
at that very moment  
I knew that you were in love with me. I was in love with  
you too. That made  
Me very happy and maybe I'm delusional living in the  
past hoping and  
Wishing that you will come back in my life.

(Chorus)

True love never dies (repeat 4) True love, will never die  
Never die (repeat 6) I pray to the God up above. That  
you're not lonely, I  
Hope that you are happy

(Verse)

I know, this is the truth you looked deep into my eyes  
and being the first  
Kiss I can't never ever love again until I'm sure that you  
are happy. I  
Hope that you're happy
