Intro

Yeah that's right I live in the land of the free
And though try to fight and take it away from me
I know I have to fight back because it's urgent
Who's with me

(Verse)

United States the land of the free, why Obama want to
take that from me
It's sad to see some Americans don't see the urgency
Illegal Aliens giving citizenship so they can vote
Americans how can you fall for the change and hope
I don't think so

(Chorus)

Tell me who's down who's down to fight
Fighting to win or lose my life (Repeat 4 times)

(Verse)

I feel like I'm in a prison shower I drop the soap
Violated eating by liberal babies, that's right they
Mutilate my body
Trying to start over but I can't cause I cannot feel the
love
All I feel is trapped in CT and I don't have no money to
relocate
Stuck in a dead-end job working for a Canadian
armored company
Don't believe the hype we make little or no money that's
the truth
Just understand the lyrics from my mouth cause I really
don't care
Without a doubt I gotta fight

Tell me who's down who's down to fight
Fighting to win or lose my life (Repeat 4 times)

(Verse)

Unites States of America the land of the free
Why Obama want to take that from me
It's sad to see Americans just don't see the urgency

Illegal Aliens giving the right to vote
America do you believe in this change and hope
I feel no hope I feel really sad I wanna hang myself with
a rope
I feel like I'm in prison I dropped the soap
Violated eating by the liberals babies mutilated my
body
Now I'm trying to make it, it is too hard so these lyrics
don't disregard
R, E, H, D, O double G large

Tell me who's down who's down to fight
Fighting to win or lose my life (Repeat 4 times)
