(La la la...)

I wake up late every morning  
Managers calling I'm still yawning  
Get up wake up hair and makeups  
Waiting for you don't be sawing  
This performance is important  
I don't think I can put my all in  
Hold on i was drunk last night  
Now it's all kicking in and I don't feel right  
Gave my number to a breh who wasn't my type  
Now my phones on silent im being polite  
Now private numbers get no love from me  
Just let me be

[chorus]

Oh my gosh my days are getting longer  
And there's no turning back, im working a 9 to 5  
Just to keep my contract did I say I meant 1:30  
Im no early birdy I'm working a 9 to 5

I'm not sure what day just started

Since my working week departed  
Ever since I single charted  
This pursuits be ever lasted  
I clocked in about a year ago  
And I haven't clocked out from the studio  
And videos and tv shows  
And staring at the window on the road  
And though sometimes we don't get paid for these  
round pages on the stages  
I know that I won't get jaded  
I won't go back to the minimum wages

[chorus]

Oh my Gosh my days are getting longer  
And there's no turning back I'm working a 9 to 5  
Just to keep my contract did I say 9 I meant 1:30  
Im no early birdy I'm working a 9 to 5
