We said good bye tonight  
But only for a short time  
Said I'm always your's  
and you're always mine  
And I wish it was the last time  
That we said good bye bye bye

Wide awake in my bed I'm thinking  
All alone and it's you I'm missing

When love is far away  
Are you really where you want to be?  
When love is far away  
I just want to feel you next to me  
When love is far away  
Are you really where you want to be?  
When love is far away  
I just know that you're the one for me

I'll count the days away  
Until we're in the same space  
Cause I cannot wait 'til I see your face  
The way I saw you for the first time  
When you caught my eye eye eye

Wide awake in my bed I'm thinking  
All alone and it's you that's missing
