Don't have to lose you wings as you grow up
Take off your cape throw it away
No need for telescopes or aeroplanes
When you've got "happy thoughts"

Cast out your sails into the open air
And navigate into the night
Can you forget everything that you know
Down on planet earth?

You have to believe to just take off
You've got to have faith to stay on top
In this new world no gravity
You don't need wings to fly away

Who says reality makes all the rules
And dreams will only hold you down
No need for flying v's or F-18's
So just do what you want

Now you transcend into the atmosphere
Into a whole new universe
You must forget everything that say
Down on planet earth

You have to believe to just take off
You've got to have faith to stay on top
In this new world no gravity
You don't need wings to fly away

Oh-way-oh Oh-way-oh
Oh-way-oh Oh-way-oh
Cause in this new world no gravity
You don't need wings to fly away

Get up and fly away come on now
Get up and fly away
