Through the night
I'm so nervous; don't know what I'm supposed to do,
Don't know what I'm supposed to say, I love you.
I'm so anxious; you don't know what I'm going through,
Don't know why I'm so afraid, I love you.
Through the night, through the night, dear,
Through the night, through the night, dear,
You don't see the love within my eyes,
Every night, every night you're creeping through my
dreams and I need more,
You had this cool disguise, I love you.
Feel so breathless, as you dance around my mind,
The thought of you sends me so high, I love you.
Through the night, through the night, dear,
Through the night, through the night, dear,
You don't see the love within my eyes,
Through the night, through the night, dear,
Through the night, gonna lose my nerve, gonna lose
my mind,
Every night, every night you're creeping through my
dreams and I need more,
You had this cool disguise, I love you.
Through the night....
You don't see the love....
Through the night, through the night....
Every night, every night you're creeping through my
dreams and I need more....
I love you.
