oh angel take me now,
take me and fly around the world //
oh angel feed my soul,
feed it with blood and gore again //
oh angel smoke my brain,
smoke it with pain and hate again //
my hands are numb,
i still cant walk on,
please take my soul, and wander away..
i have lived my life...
for the ones i have ever loved....
and all those days,
iv been waitin far too long..
but all those sweet moments i've spent with you,
i just cant take my mind away...
AND NOW IM GONE !!!...
now that i have flown away,
flown and just gone away again //
now dont you misbehave,
dont make me drag you down to hell //
i ve seen it my way,
you've made me hate myself,
its all your fault,
now that i am dead...
i have lived my life...
for the ones i have ever loved....
and all those days,
iv been waitin far too long..
but all those sweet moments i've spent with you,
i just cant take my mind away...
AND NOW IM GONE !!!...
