day after day , they go
they go to gain just a little more control
and when they took yours away
i couldn't sleep at all
i lay in bed for days
i died a sudden death
i made an awful mess
i didn't stand a chance
i didn't stand a chance
'cause when we where our best
i could care less if people bred themselves
to death
oh, but now that you are gone
i just know that everything is wrong
don't leave me alone now
