Make love to me  
One more time  
Before you go away  
Why can't you stay?

Ooh, my love  
Come home to me  
Just for a while  
Don't leave this place I knew  
Why can't you stay?

Don't run away,  
Don't slip away, my dear  
Don't run away,  
Don't slip away, my dear  
Don't run away

Don't break this heart of mine  
Something's gone  
We fell into the fall  
But I don't want it this way  
Why can't you stay?

Don't run away,  
Don't slip away, my dear  
Don't run away,  
Don't slip away, my dear  
Don't run away.  
Don't break this heart of mine  
Oh oh

There should be worse  
There should be worse than explain away  
(?) twisted

Don't run away,  
Don't slip away, my dear
