Dear camela,  
I can't believe how long it's been since you left  
its crazy How often I dream of seein you again  
seeing you in front me - but then  
I wake up - suddenly it's all gone except the picture  
in my head  
and That picture still is there damn I miss it when U  
read  
stories to me when I couldnt fall asleep in my bed  
cause the bed bugs would bite - but you said it's  
alright  
....I didn't believe you - so you stayed there all night  
I guess it didn't have to be comfortable for you  
As long as you could comfort me - that's what  
you'd do  
And I love you for that - camela ...you were heaven sent  
You were my hero - from my birth till eleven then  
That thing came....and started takin you away  
slowly but surely... came that day....  
that day in spring ----- when you were released  
from all the pain you were goin thru - rest in peace

.....camela...I love you forever  
Camela.....camela...I love you forever  
Camela.....camela...I love you forever  
Camela.....camela...

and now 8 years on - I'm writin this song  
just to show you I never forgot you -despite bein gone  
for the most of my youth - all my teenage years too  
I wish you saw me grow from the kid I was to this dude  
still a kid - still your god son - still your nephew  
unlike marriage I love you longer than death do  
us apart -and this is just a start - just a message  
count my blessings - from my heart  
I'm restless when it comes to art  
I've tried so many times to write you but I always  
failed  
everytime I sat down --- I didn't know what to tell  
you - I just wanted to hold you - smell you  
then you were prevailed from that sickness went thru  
hell

I can't even imagine what you went thru - never will  
but all I can hope now is that you're doin well  
better - cause all you deserve is the best  
I love you forever - till my final breath

Camela.....camela..I love you forever  
Camela.....camela..I love you forever  
Camela.....camela..I love you forever  
Camela.....Camela...

And I remember ----- the last moment we shared  
I sat next to your bed - my hand on your forehead  
my other hand was holdin yours - we just stared at  
each other  
because you couldn't talk anymore  
so we were..... talkin with our eyes - talkin with our souls  
reminiscin bout the times - when ur life wasn't cold  
sittin next to you that moment was the hardest shit  
I've ever done  
That feelin made me suffer - not a nother family  
member gone  
I couldn't accept it - didn't understand the  
reason  
all my family suffered greavin' never seen my  
daddy screamin  
not in anger - in desperation  
cause he lost both sisters - but not his patience  
And I admire him for that - He tried to stay strong  
in front of us kids - cause that's what fathers want  
to be the role model - no bottle helped him at all  
We overcame the pain together - holdin on

I remember this one time when I came home from  
school one day...and this was when you already had  
cancer....you asked me what I'm up to....I said I  
don't know...not much...I'm probably just gonna  
go out and play or something....

you asked me if you could take me for a walk...and I  
was like yeah whatever... I mean as a 10 year you  
don't really go for walks with your aunt do you...

so we went out...we walked for a while.....then we sat on  
a bench... you took my hand.... and said.....Ryan... No  
matter what happens to me in the next  
week...month...or even years...I will always be with you.  
No matter if I'm here when you grow up or not, I will  
always be watchin you..and protectin you..not only from  
the mosquitos in your room, but from all the things life  
throws at you. So when you feel sad...talk to me...write  
me a letter...I will hear you....Don't mourn my

death...we will always be connected...

I love you
