Hello my darling,
Hello my sweet heart
Hello my honey,
Hello my girl
We love each other
My eyes shine when I look at you
My skin is prickly when I touch you
When I touch you... for... I'm so happy

Thanks to God, (thanks to God)
I can say that I love you (I love you)
I can say that I need you, (I need you)
Your the one for me (for me)
Thanks to God, (thanks to God)
I can say that I love you (I love you)
I can say that I need you, (I need you)
Your the one for me

The bees envy me and this is the way (the way)
The bees envy me and this is the way (way)
I can say I love you (love you)
The bees envy me and this is the way (the way)
The bees envy me and this is the way (way)
I can say I love you (love you)

Thanks to God, (thanks to God)
I can say that I love you (I love you)
I can say that I need you, (I need you)
Your the one for me (for me)
Thanks to God, (thanks to God)
I can say that I love you (I love you)
I can say that I need you, (I need you)
Your the one for me
