I remember when I tried the first love
Wasting time on girls who weren't made for me,
So impatient so wait for the one oh
Stuck with tools until is the laugh me in tear

Pre Chorus:

Like a star falling out of the sky
You can't control, oh oh ohh.
Will love will command to your life,
So why not be waiting on the floor
And everyone

Chorus:

Keep on dancing for love,
Keep on dancing for love,
Never stop til love finds you.
Keep on dancing for love,
Keep on dancing for love,
Show the world what you can do.
We're rocking to the east, hey, to the west, hey
In this club dreams can come true,
'Cause we're dancing for love,
Keep on dancing for love,
Never stop til love finds you
Til love finds you.

The young is young and the... flowing
Let's live it up, lift you cut throwin' back in tea
Could it be now, right as... then
But if it don't then it's cool with me,

[Pre Chorus:]

[Chorus:]

Til love
Til love

[Chorus:]
