No, no, no  
Go, no, no  
No, no, no  
Go, no, no  
No, no, no  
Go, no, no  
No, no, no  
Go, no, no

You think it's all the same  
But I want you to believe I could be so like you  
By now you've figured out  
That I want you educated 'cause it's so like you, you

Because it's all the same  
I could be something like you  
Because it's all the same  
Watch you kill for me  
Hey me

Every time I want to and  
Everyday I will be so like you  
Hitting on the helpless  
Smoking with the infants 'cause it's just like you, you

Because it's all the same  
I could be something like you  
Because it's all the same  
Watch you kill for me

So hidden in the picture, warping the world around me  
They've been insisting there's a difference between us  
So hidden in the picture, warping the world around me  
They've been insisting there's a difference between us

No, no, no  
No, no, no

Don't listen turn around  
People might just see you now  
Make yourself a part of me  
A part of me to let you go

Because it's all the same  
I could be something like you  
Because it's all the same  
Watch you kill for me

So hidden in the picture, warping the world around me  
They've been insisting there's a difference between us  
So hidden in the picture, warping the world around me  
They've been insisting there's a difference between us

So hidden in the picture, warping the world around me  
They've been insisting there's a difference between  
you and me  
So hidden in the picture, warping the world around me  
They've been insisting there's a difference
