

Orgy "Denied"

Visit "[Denied](#)" on MotoLyrics.com

It's cold being your lover
So cold
I'm tired of being your lover
It's cold, it's cold, so cold.
It's cold

[Chorus]
Denied denied denied denied

I used to see you falling over
Falling from platforms to your head
Can't see this second, but still I stare
Gee, I'm scared and all
Can't you see I'm living dead?
Living dead a super crime

[Chorus]

They've got to know this ill creation
Hoping to and forcing it
So precious, I look around
Looking down into the crime
Still I sit there beside the sucking
And still I smile
Tell me I'm so scared right now
Trying to be the only one or more
I am the only one denied

[Chorus]

Nothing precious anymore
(Repeat 3x)

[Chorus]
