Found out you're really something
They talk about you
They turned your confidence against you now
Into nothing
Days burn the days
I'd survive and blaze
Feels good to know they've got
Special friends
Simply two faced
You couldn't let go
Your talking got you here
Tearing up everyone
Respect, you don't know
They say i'm jaded
'Cause they know it's true
It whistles those frilly people
Off the wonderwheel
Listen from the days
Purify and praise
Feels good to hear them shout
Hateful friends
Simply two faced
You couldn't let go
Your talking got you here
Tearing up everyone
Respect, you don't know
(6)
Don't waste your fucking time
Let live, let go
don't waste your fucking time(8)
don't waste
