This is a demo recording of "Eva"

I tried to think of what to give to you on this special day
Maybe a hundred roses
Maybe a photograph
What's in my heart forever
Or just some ugly picture of my big fat head
I'll give you all of my self
3 wishes, hope they come true

Just for you

Mermaid so fucking prissy look at me
So nice to meet you
Find me, I really lse something
Get that feeling like it is summer school again and it's
Monday again - That
day

Take this gift from me hold it deep in mind forever and
never let this go
Take this gift from me hold it deep in mind forever and
never let this go

I try to think of what to give you on this special day
I'LL give you all of my self 3 wishes hope they come
true
Just for you all of my self 3 wishes all of myself hope
they come true
