Verse:

You got my heart in a freeze,
A hundred minus degrees,
I'm standing here in the dark,
But you ain't looking for me,
You got my heart in a freeze,

Bridge:

And I knew from the start,
Felt a chill in my heart,
Nothing good come from this,
But I couldn't resist,

Chorus:

Now your cold, cold hands,
Got me so, so damned,
And your bitterness,
Leaves me frozen, frozen,

Like a soul vampire,
Boy you bled me dry,
Clinging to this life,
But I'm frozen, frozen,

Yeah

Verse:

I hope you find what you need,
Someone to cure your disease,
Got me so sick of your games,
Always playing with me,
I hope you find what you need,

But don't be too surprised,
When I'm haunting your mind,
I'm the hurt in your kiss,
I'm the frost on your lips,

Chorus:

Now your cold, cold hands,
Got me so, so damned,

And your bitterness,
Leaves me frozen, frozen,

Like a soul vampire,
Boy you bled me dry,
Clinging to this life,
But I?m frozen, frozen,

Yeah

Bridge:
And I knew from the start,
Felt a chill in my heart,
Nothing good come from this,
But I couldn?t resist,

No, No, No

Chorus:
Now your cold, cold hands,
Got me so, so damned,
And your bitterness,
Leaves me frozen, frozen,

Like a soul vampire,
Boy you bled me dry,
Clinging to this life,
But I?m frozen, frozen,

Yeah
