Slipping past position

You know I watch your time

Watching you painted in cro max factor and feeling  
number one

All alone now, I can see you wade to the drone

Radio waves hitting your brain from the phone

I can see

I can see what's on your mind

Coz you're never alone

I am the voice inside your head

And the eyes in your radio (eyes in your radio)

I'm the eyes in your radio

Hello mister race car driver

You know I'm watching you too

In the trauma room, braindead

Still you went faster

Now your number means nothing

Mister nickel-plated candyman

Are you feeling lifeless in aluminium?

Spinning decisions to the core

As everyone dances in the fast lane

I can see what's on your mind  
Coz you're never alone  
I am the voice inside your head  
And the eyes in your radio (eyes in your radio)  
I'm the eyes in your radio  
With all that's freak this sends to make  
From toys that break  
You're starting to throw away  
You're the bad things that you hate  
You scared yourself away  
Now hate's what you appreciate  
That's why people lie (people like you)  
That's why people lie (people like me)  
That's why people lie (people like you)  
That's why people lie (people like me)
