My way through London, Americana
The persona, it's primadonna
Kick a motherfucker to the cizzurb
You think you crazy, I'm berserk

I'm off the chain, you gotta love it
I can't express enough, how bad I want it
Baby one day, I wanna be there
Beyond the stars, like a zillionaire

I got my click up in here
Put them diamonds in the air
You can hate this all you want
But we gon' take this everywhere

Don't pay them, no never mind
You're just a waste of time
Baby watch it from the sideline

While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life

I see the light, see the money
Super glamorous
Push up the runway
Wanna be infamous

Notorious as I reckoning
According to us, whiskey nights
Gets in to tear blowing money fast
Gets you to keep

Maybe one day I'll live there
Beyond the stars
Like a zillionaire
I broke my pick-up hanging
Now put your diamonds in the air
You can hate this all you want
But we gon' take this everywhere

Don't pay them, no never mind
You're just a waste of time
Baby watch it from the sideline

While I roc the li li la la li li life
While I roc the li li la la li li life
While I roc the li li la la li li life
While I roc the li li la la li li life
While I roc the life

Oh oh, we're gon' make this day last forever
Oh oh, I'll make this the night to remember
No surrender

Write my name on stars
So you can see it
Wherever you are
Please believe it
I'mma take it all
Ain't gonna stop
Until I fall fall fall fall

Write my name on stars
So you can see it
Wherever you are
Please believe it
I'ma take it all
Ain't gonna stop
Until I

Oh, I wanna roc the life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life li li la la li li life
While I roc the life
