Baby it's the last time, we ever fall in love  
Even though I said enough  
I wanna hold on to, if love is true,  
Like we never did before  
It's the last time I fall in love  
Even though the heavens above  
I wanna hold on to, if love is true  
Like we never did before, before, before, before,  
before...

Baby it's the last time, time, time, time, time, time...

One long night, so deep in my heart  
Just music, dance in the dark  
One long night, hot fire,  
You're playing my mind, all of the desire  
Girl I can't keep it down inside, the love and the pain  
Don't be such a liar, every time we fight  
Hurting us two  
I can't stop really loving you

Baby it's the last time, I ever fall in love  
Even though I said enough  
It's the last time I fall in love  
Baby it's the last time

[Flo Rida singing incomprehensibly]

One long night, so deep in my heart  
Just music, dance in the dark  
One long night, hot fire,  
You're playing my mind, all of the desire  
Well I can't keep it down inside, the love and the pain  
Don't be such a liar, every time we fight  
Hurting us two  
I can't stop really loving you

I met her at the bar, we had drinks and got wasted  
Sent her straight to her car, we would start soon there  
kissing  
(?)

Told you bout my one night, with this girl out in London  
This girl out in London, London, London

Baby it's the last time, I ever fall in love  
Even though I said enough  
It's the last time I fall in love  
Baby it's the last time

[Flo Rida singing incomprehensibly]

Baby it's the last time, baby it's the last time  
Baby it's the last time
