You never get older
Staying undefined
No fresh faced elder
Turned water to wine
Stand a bit closer to fleeting fires
And I won't try to lift a boulder
The chip that's off my shoulder is thicker than a fry
Come pretend you didn't know her
Help me to get over
And Off the Borderline

Go and set the world alight
As you wait on your wealth
Go and get another life
To turn into yourself

Don't say we snowflakes aren't alike
I'm a lot like you in a lot of ways
You don't wanna be behind the guise
Sitting stuck and on the Borderline

Forward
Don't stop going forward
Nothing lights the way
Just stick to the white line
Against this
Are you for or against this
You know you'll never make it
Off the Borderline

Don't say we snowflakes aren't alike
I'm a lot like you in a lot of ways
You don't wanna be behind the guise
Sitting stuck and on the Borderline
