every step that you take is like falling down you can  
walk a 100 miles but your falling down and you taking  
the dark-side

Chorus: your made of glass your like porcelain your so  
fragile than I've ever seen x2 oh woah oh oh oh oh x2  
your so fragile than I've ever seen

every where you go you try and find the pieces to your  
heart but your falling down (down down down) your  
world's filled with sorrow and your falling down (down  
down down) your taking he dark-side and your falling  
down

your made of glass your like porcelain your so fragile  
than I've ever seen x2 oh woah oh oh oh your made of  
glass you like porcelain your so fragile than I've ever  
seen x2 oh woah oh oh oh x3
