"Shake The World"

Some things will never change
We all grow up
With a certain amount of pain
Itâ€™s nothing you canâ€™t rise above
My father told me when I was young
Desperate times will always come
Itâ€™s nothing you canâ€™t rise above
Itâ€™s time to shake the world
Raise a little dust, come on
You better shake the world
Iâ€™m leaving it up to you
If it moves you, shout about it
Shout about it loud
If you need help
The brave among us
Will be right by your side
Iâ€™ll tell my children when they are born
Your Daddy wants you
To make a lot of noise
You be the one voice in the crowd
To make your feelings known out loud
You better shake the world
Put it back on track
You better shake the world
Iâ€™m leaving it up to you
