(Intro)

In the barrel of a gun
In the barrel of a gun

(Verse)

Swagger, the newest nigga, I'm winnin
This is just the genesis, homey it's the beginning
I'm travelling round the world and I'm getting pain with
my crew
It's a lot of people wondering why I do what I do
When I think about my mother who put your boy
through summer school
When I was failing classes, waiting kiss these teachers'
ass
And I think about my pops who worked that 5 to 5
On the nights I should've died just to keep the dream
alive
Now I'm standing here with 20 gold chains, I never run
Try to harm either,
You gon have to meet the barrel of a gun

(Bridge)

You only got one shot
You only got one shot
You only got one shot
Don't fuck it up, yea

(Hook)

When you get your shot, you better take it nigga
When you get your shot, you better take it nigga
'Cause I will take mine and I will not miss
I'mma take mine, homey watch this

(Verse)

A lot of these rappers be out here wailin
Out here talkin all violent, I prefer to move silent
I know I'm on fire, but ain't nobody flyer
These niggas say they hustle when they life is like the
wire
Well my shit a little different, I'm living like Breaking
Bad

I got them white boys cooking up in the lab
And we'll see our pears, we only see the legends
I rarely talk guns, my ind is more a weapon
I'm murdering these rappers, going hard in every
session
And my money got it coming, faster than a bullet
fromâ€¦!

(Bridge)
You only got one shot
You only got one shot
You only got one shot
Don't fuck it up, yea

(Hook)
When you get your shot, you better take it nigga
When you get your shot, you better take it nigga
'Cause I will take mine and I will not miss
I'mma take mine, homey watch this
