All my niggas tryna get it, you wit it, I'm wit it
Your bitch gon' let me hit it, she wit it, I'm wit it
Got the city on my fitted, you wit it, I'm wit it
And we really be about it, we talk it, we live it
You wit it, I'm wit it, these niggas know that I'm wit it
You wit it, I'm wit it, these bitches know that I'm wit it
She on it, I'm on it, they don't do this shit how I did it
And if it's 'bout that money, then yeah, you know that
I'm wit it

(Verse)

That nigga Rockie be winning, it's no doubt that he wit it
It's a whole lot of money left, I told my niggas let's get
it
This what happen when you go hard and learn to stay
committed
Told these niggas I would cash out, when I said the
shit, I meant it
And it's quality over co-signs, I be giving them dope
lines
Like I'm doing them drug deals, flow just how them
drugs feel
All my haters can dig a ditch, I'm out of trouble, I'm in
your bitch
Having fun while I'm getting rich, I killed the game,
fuck a snitch
I'm from Chi-Town, in your city, real niggas roll wit me
Bad bitches roll wit me and our pockets never on empty
Moving wit the money, I go wherever that send me
Champagne sipping, better living, haters never offend
me

Okay, I had a talk with my new ho, said I don't care who
do blow
I'm tryna get me a Hublot, put butterflies on my two
door
Got one rollie, need two more, that's one roll, need two
more
Got a college girl on her school flow, pay her tuition
with two shows
I'm never moving too slow, all about that fast pay
A lot of niggas be on Durk but we staying fresh till our
last day
88 how we ride out, all my money and time count
I heard these hoes looking, I should invest in a hideout
The longterm is what I'm 'bout, long nights, no rest
All I do is go hard like a elbow from Artest
Smoke good, no stress, more checks, oh yes
Gotta feed the homies, all real niggas know this
