Stars

[Verse 1: Rockie Fresh]

Everyday we turn up party like the weekend
Come and take a picture in here
Money we'll be seeing
Er'day we turn up
Money we'll be seeing
Money, money we'll be seeing
Money, money we'll be seeing

If you love life put a hand up
Know some times you may break down
All in all and everything is cool
When you make moves and you paint towns
Have good drinks with good friends
When the city's born you take trips
They'll go with you to the end and back
And then catch you if you may slip
And then help you get back up
Reach for the stars and find your peak
Many nights of that great work
All I got was some bad sleep
But for all the nights that I stayed up
These the moments we prayed of
The ones that thought would make it
Finally get to see what we made of
We paid up

[Hook] x4
