(Intro)

You are now in tune with your wifey's favorite DJ
DJ Ill Will

(Verse)

Rakibi chief, maybe I'm tweekin
But these rappers just decent and I look like the coldest
Forever I'm focused, don't my people notice
I went from sleeping on the twins and nice with the
Olsens
I know I'm the dopest though my city seem hopeless
Lot of people don't make it, lot of niggas be fakin
Lot of niggas be dyin so my main goal is surviving
In the town I'm residing, grinding until I resign
You know how we ridin,
Watching out for them sirens
Copping kicks for the team, make sure my people stay
clean
I come step on the scene, Alexandra McQueen
I am crack, I spit that, turn yo girl to a fiend
She hit the loud and she lean,
She know I be rolling strong
It's rocking like The Rolling Stones
She see me in The Rolling Stones
We rolled up on that right now
Light me up and wash me down
If they ain't moving with the movement move the fuck
around

(Hook)

I take some hits, I'm faded weeks
Know my money fast, way to saving it
One life to live, no fucks to give
Blowing loud in the crib, bout to do it big
Roll up right now, roll up right now
You're so high touch a cloud, roll up right now
Roll up right now, roll up right now
This the night I break it down, roll up right now

(Verse)

I'm riding in some shit only I could deserve
Old school though so ahead of my time
With every line that I drop, every fashion line that I rock
These niggas is catching up late, reset they clocks
Daylight saving time, they just rolling wires
I only trust in they mind because lifers, the same kind
robbers
Come but fiber hood stripes on the dot viper
GTS clothes courses, professional drivers, trained
killers
Now none of this old regular rap niggas
Cuz I don't rub elbows with em
Just round net worth 100 million
It ain't but 3 niggas in it
This living, isn't it? We loud
Bitches is vivid, televisions is flat, 90 inches
Mounted on these walls, this house belong to a doll
Holding my weed with my hoes
Ash nigga, Rick Ross
Roll up right now
Police is pulling up, pull that joint down

(Hook)

I take some hits, I'm faded weeks
Know my money fast, way to saving it
One life to live, no fucks to give
Blowing loud in the crib, bout to do it big
Roll up right now, roll up right now
You're so high touch a cloud, roll up right now
Roll up right now, roll up right now
This the night I break it down, roll up right now
